A 'Great' Start To A New Day

*Do you know how to feels to be **hurt, lost, broken, faking a smile, being blamed...** well if you don't, then let me tell you a story about a broken country.....*

.....

.....

North Korea's View

I hear my alarm, I rise out of bed groaning, I shut my alarm up and stare at the time. I sigh and get up stretching, I walk over to my closet and get my usual outfit.

I change and then I open my door, I walk down the hall hearing my boots click on the wood floor. I open South Korea's door and flip on the lights.

To my surprise he is here, normally he is always staying the night at America's house...Oh let me tell you who America is. They are a big country and b*tch who likes to bully me and likes to take my brother from me, by telling dirty lies. I can fight him but he always ends up wining because he is a bigger country.

I then snap out my thoughts as my brother says "are you just going to stand there all day, or are you going to leave so I can change. I look at my hand to see it balled into a fist, I look at South Korea and leave his room.

I walk into the bathroom to brush my teeth, after I am done I walk downstairs and start cooking breakfast. I make eggs and bacon and set it in a plate for my brother.

South Korea's View

I change into my usual outfit and then I grab my phone and headphones. I put them on and turn to K-POP. I jam to my music as

I wake my way to the bathroom and brush my teeth.

I can't stop thinking about my brother, he seems off today...he is more silent than usual. Oh well its not my problem, I finish and then walk down stairs to see my brother standing by the table with one plate of food.

I take off my headphones and stop my music, I sit down and start eating I say "so Bro, are you going to eat?" He looks at me and replies with "I already ate...before I woke you up..." I look at the sink and there was no other dirty plate.

Oh well, I finish the plate and then I say "are you okay, you seem off..." he takes the plate and then goes to wash it off. I sigh...He does not seem alright...but I could care less!

North Korea's View

To be honest, I did not eat at all...I dry the dish and then I walk over to the door and open it. I step outside...my enemy...It leads to my school full of bully's, and people who want to hurt me...and people that want me dead.

I then feel a tap on my shoulder, I turn to see my brother saying "School, remember ?" I nod and then we walk down the sidewalk.

(After 7 minutes of walking)

As I was about to go threw the school gaits I feel someone push me. I then hear a familiar voice say "SOUTH ARE YOU OKAY?!" I get up...to meet China.

I glare at him, he says "WHY WERE YOU ABOUT TO ATTACK YOUR BROTHER YOU MONSTER!" I say "what are you talking about!"

He then points to the floor, I look down to see a knife, I glare at him...Then a teacher tune over and then says "what happened?!" Before I can speak China says "North Korea was going to attack his brother with a knife!"

The teacher turns to me and says "Is that true North Korea!" I say

"No, I did not have a knife on me at all, China placed it there when he pushed me." She then says "Detention North Korea!"

I groan she then says "this better not happen again you little rat!" Then she walks off...I hear South Korea say "HOW COULD YOU BROTHER!" He then runs over to Japan.

Then I hear China whisper in my ear "*you better watch your back you little rat~*" he then walks off. He reeked of alcohol, I stare at his tall figure walks off.

I then sigh and then before I could walk I hit the knife. I look at it...I then snap my head up as I hear the bell ring, I sigh not caring about being late. I walk to my locker and open it, I grab my school stuff until America closes my locker door.

I look up at the taller country as he says "you better not hurt your own brother, you little rat!" He then kicks my in the stomach, I groan and hit the ground.

I then quickly punch his eye, I hear a crack, it must be his glasses. I then start punching him over and over again. And then he punched me in my eye that was covered by the eye patch.

I cover my covered eye as so much blood poured on to the floor... I stare at America, and then I punched him in the face again then I kicked him in his stomach.

But then he grabs my leg and then punches my ankle, he then hits me in my gut. I was up against a wall as he beats me. Then he says "do not say a word to your brother or even go near him..."

Then he leaves, I get up holding my arm and my eye, then the world around me darkened... I start to walk slowly to the Nurses Room and then I pass out on the floor.

Messed Up Big Time

North Korea's View

I start to wake up in a...room...I look over to see a doctor sitting there wearing things down. I sit up but then a wave of pain washes over me.

The doctor sees me and says "please lay back down..." I don't listen and I say "what happened..." he looks at his clipboard, then says "you were found near the nurses room in your school by your brother..."

I sigh...the doctor says "now lay back down...and stay calm, your already driving the heart monitor crazy!" I lay back down.

He then says "can you answer some of my questions please?" He goes over to a computer and then logs in. He goes to a page and then says "do you have any other family besides your...brother?"

I say "no..." he then says "please say the name of your country..." I take a moment to answer then I say "North Korea..."

He pauses and writes it down...he then says "how did you get injured?" I take a moment to remember then I say "I was walking in the school hallway then the country America started to fight me so I fought back in self defense..."

He writes it down then says "do you have any mental illness?" I say "no..." he then says "I will be back in a moment..." he then leaves the room.

I get up and look at my bandaged hands,arms,legs,waist, my eye I can't see out of. I look around and see my eye patch on a desk.

I grab it and put it on, I see a chair with my clothes on it so I grab them and leave the room. I close the door then I walk down the hall and into a bathroom.

I change and then I stare into the mirror... I look like a mess...I leave the bathroom and walk down the hall to see my brother South Korea sitting in the waiting room.

When he looks at me he says "we need to talk..." I look at him and then he says "let's leave..." I nod not wanting to run into the doctor.

We leave and then we walk to our house...when we enter he says "why did you beat up America!" I stare at him.

I yell "ARE YOU SERIOUS?! HE BEAT ME UP! I FOUGHT BACK IN SELF DEFENSE!" He then screams "NO!HE RAN TO ME CRYING THAT YOU BEAT HIM TO A BLOODY PULP!"

He then yells "AND DO NOT LET ME GET STARTED ABOUT YOU TRYING TO STAB ME YOU NASTY B*TCH!"

I yell "I WAS NOT TRYING TO STAB YOU! CHINA FRAMED ME!" My brother yells "BULLSH*T!" I YELL "ARE YOU REALLY GOING TO CHOOSE YOUR FRIENDS OVER YOUR OWN BROTHER?!"

Then he yells "I WISH YOU WERE NEVER BORN YOU MONSTER!" I stare at him he yells "I FO NOT WANT A BROTHER THAT TRIED TO KILL ME-"

He then slaps a hand over his mouth...I stare at him...I start tearing up. He says "Wait North I didn't mean it like that!" I run out of the house into the city crying.

I reach a ally way...I sit against a wall sobbing...I smash my hands on the wall over and over again..."I can't d-deal with this p-pain anymore!" I see a metal baseball bat.

I grab it and start smashing things, I smash and smash everything sobbing yelling "IM NOT A MONSTER!" I smash everything...I start hitting the wall.

I start coughing...I slide down a wall crying...I stare at my blood stained bandages... I lean against a trash can holding the bat close and then I start to drift off to sleep.

.....

.....

South Korea's View

I was running everywhere look for my brother...I messed up! I never should have yelled at him! I rush over to Germany's house and I start banding on the door.

He opens the door I start sobbing, he says "c-clam down South Korea! What's wrong?!" I yell "I YELLED AT MY BROTHER AND SAID HE W-WAS A-A-A MONSTER! A-A-AND THAT I W-WISHED HE WAS NEVER BORN!"

"NOW I C-CANT FIND HIM! I NEED H-HELP!" I continue sobbing "I-I messed u-up" Germany says "I will help you look for him..."

I got a lot amid my friend to help me frind my brother...I texted everyone to meet back at my house...I arrive at my house and see everyone here.I say "did anyone f-find my brother?!" Everyone say "no..." I start sobbing...

(Next Day)

North Korea's View

I wake up in the ally...I look at the bat...I get up...I guess I fell asleep...I carry the bat with me to my house.

I open the door and sneak into my room... I change into a blue and crimson red striped sweater with ripped jeans and some boots. I place the bat in my closet.

I hear a gasp so I turn my head to see my 'brother'... he runs over to me and starts crying. I shove him off me... I say "I thought you said I wish I was never born...and that I was a m-monster..."

He says "I'm so sorry! I did not mean any of that! I-I was just so angry-" I say "at me?..." he says "No! Well m-maybe but! I did not mean any of that!"

I turn my head away from my brother, I say "it does not matter...I do not matter...I'm just a monster..." he starts crying some more.

He then leaves...I look at my phone to see a lot of calls and texts...over a hundred from my brother. Whatever...I throw my phone at the wall and the screen cracks.

I grab my bat from the closet and start smashing it...I smash my window and my picture frame of my brother and I.

I drop the bat and look at it...I start crying...It says *"brothers forever!"* I get angry...I cut my fingers on the glass.

I put it into the ground and I hit it with the bat, I then smash my room...breaking...ripping... tearing everything in it except for my Korean uniform.

I then hear my brother starting to run up the stairs, I look back and glare at my brother...He stares at my room.

South Korea's View

I stare at the broken room, I cover my mouth...He glares at me with white hatred as tears roll down his face...I messed up...big time.

Love Is Pain

(Sorry that it's been a while since I have updated!)

Chinas View

I was walking down the street, I take out some cigarets and light one. I look over to see America walk over to me.

I say "you need something?" He then says "well you missed a search party for North Korea!" I say "really?"

America nods, I shake the pack of cigarets , he grabs them and says "got a lighter?" I give him a lighter. I continue to smoke until I start thinking about, North Korea.

I shake my head...but I start to think about him more...I start to feel my face heat up. America says "well I got to go, bye..."

He then walks off with the cigarette. I sigh and drop the smoke on the ground and stomp on it. I walk over to my house and pull out my keys and open the door.

I step inside and close the door...I then rush to my room and start thinking about North Korea again! Why am I caring for him!

I punch my wall and sigh...I sit on my bed and they lay down staring at the ceiling. I start blushing more as I think about North Korea. I guess...I-I like him now.

North Korea's View

I was in my room staring at all my smashed stuff...I look at the bat and then I grab it and bend it. I drop it on the floor and then I sit against a wall and start to drift to sleep.

.....

.....

I start to wake up seeing my room the same mess it was before, I change into what I always wear and then I walk downstairs.

I see my brother sitting on the couch, he looks at me then says "I know it's Monday but your in no condition to go to school..." I role my eyes and then I open the door.

My brother stops me and says "where are you going?" I look back at him and say "none of your damn business..." then I slam the door on him.

I walk down the street, as other country's stare at me, whispering about me, spreading lies about me. Saying that I beat up America for no reason.

I reach a coffee shop, I open the door and then I see...Japan working here...weird, I think she is my brother's girlfriend. She looks at me then says "come to the counter when you are ready to order!"

I walk over to the counter, she says "what would you like to order!" I say "just some black coffee..." she smiles and says "okay! Also what's your name?!"

I stare at her, I say "North Korea..." she stares at me, I think I messed up! She then said "SOUTH KOREA HAS BEEN LOOKING FOR YOU!"

I look to the side, I say "ya...I know, I guess he didn't tell you that I came back..." she starts making my coffee. She says "did you just need time to yourself?" I nod.

She hands me my coffee, I drink it and say "thank you..." I give her the money and then I leave. She was weird...but a nice weird, whatever I don't care.

I continue walking down the street and then I smell smoke...I throw my empty coffee in the trash a small then I look in an ally way hiding behind the wall.

It was China! He was selling smokes to another country! I can't see the face...I hear there conversation.

"So, how much will you give me the smokes for?" China said to the country. Then I know who it is from the voice, it's the Ukraine.
(You all probably hate me for this)

"34k..." Ukraine said, China said "you have yourself a deal Ukraine!" I then hit a bottle with my foot. They turn so I quickly run into a store.

I saw them threw window of the store so I hid myself but I pretended that I was looking at things. But then they came in...I got nervous and started to sweat.

Then China came up to me...He then said "what are you doing here! Your supposed to be at school!" I look at him and say "so are you..." he then grabs my wrist and brings me into the boys bathroom.

He had me cornered, he got really close to make face and said "do you want to get hurt?!" I start to sweat more. I can't fight him! Because of my arms and stuff!

China's View

I knew he was scared, he was sweating, I growl and bite my lip trying not to blush at North Korea. My hand grips into a fist then I punch his eye.

He falls to the floor holding his eye, I say "never talk back to me again! Or it will be worse!" I then leave the bathroom, leaving him there. I still blushed as I leave the store leaving Ukraine behind.

North Korea's View

I hold my eye as I start to tear up from the pain, I curl into a ball and stay into he floor, I feel blood trickling down my face, from under my eyepatch.

I then hear foot steps entering the room, I look up but my vision is blurry from tears, then I realize it's my brother.

South Korea's View

I rush over to my brother and say "are you okay?!" He doesn't reply

but just keeps crying, I notice blood, I try to help him up but I can't.

Then someone came in, it was Germany! I say "Germany! Please help!" He says "what happened?!" I look at my brother on the ground bleeding. I say "I found him like this!"

Germany then says "let's bring him back to your house..." we help North up then we get to our house.

I open the door then let them in, Germany puts my brother on to the couch. I try looking everywhere for the med kit but I can't find it.

Germany said "where is the med kit?!" I shout "I DONT KNOW!" We look everywhere then, I say "well I didn't check North's room..." Germany then says "why?"

I start crying, I say "because he destroyed his room...he is angry with m-me" I start sobbing. Germany says "come on! We need to help North Korea!" I nod and wipe my tears.

We enter and then Germany just stares, he says "wow...North really got angry..." I nod and then I see the bathroom door open. I walk in and see the med kit.

We rush down to North Korea, Germany says "I know how to help him, just be my assistant..." I nod, he then takes off the eyepatch to see a bandaged 'eye'.

He then unwraps the bloody bandages, I look at North Korea and he was sleeping, while blood and tears drop down his face. Germany then gets the bandages off then says "hand me the peroxide..."

I hand it to him, he takes off the cap, he waits a moment then pours it into North Korea's eye. North then wakes up screaming in pain. I hold him down as Germany finishes he cleans North Korea's face then wraps his 'eye' in clean bandages. Germany steps back.

North Korea's View

I put my eyepatch on, then I glare at my brother, my eye hurts like hell! I put a hand over it and hiss in pain. I look to see...Germany

holding a empty bottle of peroxide, I groan.

Germany says "I guess my work here is done, later America..." he then leaves. My brother says "look North...I know I messed up...big time...but I need to to listen to me!" I sigh and nod looking away from him, not wanting to meet his gaze.

South continues "I was just so angry...that I didn't have control over my words...I'm so sorry North...I'm a terrible brother..." I look at him to see him crying. He then says "I'm so sorry North!"

I don't know what to think anymore...what if the same thing repeats. I want to trust him but I don't know if I can. I don't reply, South turns says "North can you please forgive m-me..." I stare at him.

He stares back...I....I....I want to forgive him...but I don't want to go threw pain... I open my mouth but then I close it. South looks at me desperate for me to forgive him.

Apologizing

North Korea's View

I then say "I-I forgive you..." South then hugs me. "Your choking m-me!" I said choking. South then says "sorry! I'm just so happy you have forgiven me!"

I give him a smile, "I guess... I sleep on the couch now..." I said, South then says "well you shouldn't have broken your room!"

I smile and say "well sorry, I was just very mad..." South looks at me and gives me a sad smile and says "it's okay North!" I smile and say "wait...what day is it ?" South says "it's Wednesday!"

I sigh and say "I'm going to have a lot of homework..." South chuckles saying "you still need to rest! Your still in pain!" I sigh and say "but I can go to school..."

South looks serious for a moment then says "if I let you go to school, your staying by me." I sigh and nod. South smiles at me then gets up walking away.

-the next day-

I wake up on the couch...I sit up and run my eye. I get up then I go to my own bathroom and brush my teeth. I walk downstairs to see my brother ready to go.

South says "let's go!" I nod then we leave, heading to school. When we get there people looking at me, whispering to others, Just great.

South grabs me and pulls me with him to his friends Japan, America(not for long >:3) and China....

America looks at me then says "what is he doing here South!" South looks at me then at America. "Well I thought he could hang with us!" South said as he puts his hand on my shoulder. I look at them and Japan was the only one that seemed happy, besides my brother.

"This will be great!" Japan said excited! South nods and gives her a smile. I sigh and look at China who was looking straight at me.

China's View

Damn! North Korea is going to be hanging with us now! I felt heat go to my cheeks. "What's wrong China falling for North~" Japan says looking at me smirking. "I don't know what your talking about! And EW!" I said blushing more.

Japan just smirk more and says "sure~" she then grabs South Korea's hand then says "let's head to class!" They both then leave. I guess America left to sense he was no where to be found right now. It was just me and North Korea looking away from each other.

"Look...North Korea-" I looked to see North leaving. I need to apologize...I walked after him, but he seemed to be walking faster away from me. I put a hand on his shoulder. He looks at me with a glare and says "what..."

He seems angry, "look, I'm sorry about what happen yesterday..." North just flicks my hand off his shoulder and continues walking. I really screwed up...I'm such an idiot.

North Korea's View

I'm not accepting that pricks apology! It's going to take way more than a stupid

'I'm sorry' to fix things! I don't even feel like being here. This place is one of the only ways make feel like a rat.

I turn and head for the doors. I pull out my phone and text my brother that I didn't feel like going to school anymore. Then I left the building, heading home.

As I was walking down the street I keep on hearing footsteps. Which is weird because there is no one in sight. I turn and see China standing there. "Listen North... I'm really really! Sorry! Please forgive me..."

Memory and Invitation

[image]

North Korea

I stare at him, and say I'm a cold tone "what makes you think I am going to forgive you, after everything you have done to me..." China sighs "look... I know what I did was wrong... and I feel terrible-"

"Sure you do! Your just toying with my emotions!" I shouted, "leave..." I said then I turned away from him then started walking." I didn't want to see him right now, after everything he has done, there is no way a simple 'sorry' can fix things.

I felt a hand on the shoulder, I turned and saw China again, "I'm not going to forgive you, leave me alone..." I ripped my shoulder away from his hand. "Just let me make it up to you! To prove that I'm sorry! I will do anything you ask!"

I stare at him "then why don't you leave me alone forever..." I said in a cold tone then turned from him then speed walked to my house, then in the distance I heard China voice say "You can't say mad at me forever!!!!". I grabbed my keys then unlocked the door, then twisted the door nob and pushed.

I entered the house then closed the door, locking it, I placed my bag on the floor then sighed, thinking about what China said, "that prick..." I said to nothing, I sat on the couch then turned on the TV.

I only saw cartoons, and the news on, nothing else, whatever. I then saw one on me from about 11 years ago. About me stealing from a store, it was only food but once they learned about my country people have been spreading bad things about me.

I was only getting food for me and my brother, we had no food and lived in an abandoned house. That's when South Korea started to make friends and spent time with his friends more. Then forgot about me... his own brother, but what's in the past.

Memory

I ran to my house, failing to get food for me and my brother, I opened the rusty door and saw my brother sitting on a torn up couch.

"Hey...South..." I said in a sad tone. "What's the matter?" My brother said in a confused tone.

"I didn't get food... I failed..." I said, looking down. I knew my brother was annoyed because I didn't get anything to eat for us. Because I was not sneaky enough to even get a crumb.

"It's...fine North...I made some friends and I can going over to there house..." my brother said getting up. "Can I come with ? I mean it's lonely here alone..." I said.

"Sure, why not..." he walked over to the door then I followed him to this guys house called America. My brother knocked on the door. I heard footsteps then the door opened.

"Hey South Korea!" The guy said happily "hey America, I brought my brother along, is that fine?" The guy turned to me. "Your that guy on TV! About the store robbery!" He said surprised.

"Ya...what about it?" I said, he turned to South then said "sure he can come in!" The guy America let us in. I entered after South. The place was clean, very clean.

"Nice place America!" My brother said to America, "Thanks south!" America said smiling. I just looked around, it's really clean. Like he spent a lot of time cleaning. "Hey bro! We're going to go into America's room to play video games! Have fun!" My brother shouted at me then they run up the stairs.

I sighed then sat on the couch, "I guess he wants to hang out with America..." I said in a sad tone. I got up then exited the house, walking down the streets.

.....

As the days went on, South forgot about me, he started off with telling

me he was going, then when I got back home he would not say a thing then take off. Then he just... stopped waiting for me to get home. He cared about that America guy more than me... his own brother.

I sighed at the memory, I looked at the time, it was 5:30. My brother should be home soon. I hear a knock on the door, I get up and open the door to see South Korea standing there smiling.

"What are you so happy about?" I said questioning why he was so happy. He is never this happy. "I got invited to a pool party! They said I can bring anyone! Want to come?!" My brother said way to excited for his own good. "Who is hosting the party?"

"China!" He quickly answered, "I'm not going anywhere near China..." I said then turned away and sat on the couch. "Come on! Please!!!" South said, begging for me to come.

"Don't you remember what he did... I don't forgive him..." I said, as I hit my head on the pillow that was on the couch. "Come on! You can't stay mad at him forever!!!" South said, shaking me.

I didn't reply, I sighed and didn't move, "fine, it starts on Saturday! So make a decision before then!" South said then left the living room. I sit up then look at the TV about the news. "Should I go... I mean I don't want to... but I can't stay mad at him forever." I sit there in silence, "I guess I'm going."

Feelings

| I'm sorry for not updating this book! I was just stuck on what to write for this chapter!|

North's View

"But if he does anything I'm leaving!" I said shouting, "why are you shouting?!" South Korea said sweating a bit. "I don't know...when I think of China... I get so angry I just want to rip something apart..." I said sighing.

"I think I should call Japan over just in case..." South said starting to call Japan. Seriously why Japan? He could have called Germany. "Sure, but why Japan?" I ask confused.

"Because she is usually good at knowing what your feeling..." South said grinning as he walked into his room putting the phone to his ear. I turn my attention to the TV and it was talking about a murder.

I turn it off sighing, not knowing what to do I just lean into the couch. My brother comes in smiling "she should be here soon-" South got cut off as there was loud knocking at the door.

I got up and opened it to see Japan wearing a molecule and holding a note pad and pen. "Japan what are you wearing?" I asked confused out of my mind. "I heard you were confused on your feelings for China! So I'm here to help you!" Japan said with a grin.

I sigh and let her in then I close the door and sit on the couch. She sits across from me. "So what do you feel when your around China?" Japan said flipping the note pad to a page and holding the pen to the paper.

"Okay... I feel angry and annoyed when he tries to talk to me... but I also feel...scared for some reason?" I said confused with my emotions when I thought about China. "I see... do you feel anything

warm when your around him~?" Japan asks grinning more.

"I feel burning hatred for China... but I guess I kinda do?" I said confused on what I was saying. "I see! I have the answer already!" Japan said.

"You both hate each other but you both love each other!" Japan said happily. "WHAT?!" I shout standing up. "It's pretty normal to hate someone and have feelings for them! Just like any gay anime!" Japan said throwing her note pan and pen into the air.

I sigh in frustration, I can't like China! I hate his guts! I want to scream! "You know she's right North!" South said smiling. "SHUT UP! THERE IS NO WAY IN HELL I LIKE CHINA!" I screamed.

"Calm down its not a bad thing! Your just in love with him!" South said trying to calm me down but it was not helping. "How is that not a bad thing! I hate China's guts!" I said angrily.

China's View

I was sitting in my living room watching some TV until Japan texted me, I open the text.

|they are Texting|

Japan: hey!

China: ya?

Japan: can I come over to your house?! I have something to discuss!

China: okayyyyyy

Japan: see you in a few seconds!

China: wait what

|they are not texting anymore|

China's View

I look up from my phone to my door to hear banging. I get up then

open the door to see Japan wearing a mustache and holding a note pad with a pen. "I'm here to talk about your dealings with North Korea!" Japan said grinning.

"Wait what?! And what's with the mustache?" I ask confused. "Don't ask!" Japan said putting a finger to my lips then sits on one couch in my living room.

I sit across from her on a different couch. "So what now?" I ask confused. "What do you feel when your around North Korea?" Japan said smiling while opening her note pad and raising the pen to the paper.

"Well I feel annoyed sometimes because I have been trying to make it up to him... but he just seems angry, and annoyed and gives me with look of hatred..." I said sighing. "Well he has every reason to, you put a knife into his hand, you beat him up..." Japan said writing stuff down.

"I know! I just wish I could make it up to him! But he's just so difficult!" I said annoyed. "Well how do you feel when he looks at you?" Japan said looking up at me. "I feel guilty... for what I have done to him..." I said looking down.

I hear her writing something down, "we'll do you every feel warm around North Korea?" Japan asks. "Well...yes... I don't know how to describe it..." I said looking back up at Japan.

"I see... I have all the information I need!" Japan said. "Wait what was this for again?" I ask confused. "Well... THATS for me to know and you to find out!" Japan said then she left.

Japan's View

I have all the information I need! So China wants to make it up to North Korea but North Korea is still angry at China for all he has done. And North Korea is very confused on what he feels for China.

This is very interesting! Very very interesting! I ship it so hard! Anyways time to go bother Russia!
